

Electromagnetic Pulse & Geomagnetic Disturbance Resilience Seminar

The Cybersecurity and Infrastructure Security Agency's National Risk Management Center (CISA NRM), the National Electrical Manufacturers Association (NEMA), and the Department of Energy (DOE) are collaborating to hold an EMP & GMD Resilience Seminar on June 8, 2021. It will be an opportunity for government and industry leaders and experts to convene, connect, and collaborate to secure the Nation's electric grid.

Multiple governments and industry partners have expressed interest in protecting the grid against naturally occurring (GMD) and man-made (nuclear EMP) threats. The Resilience Seminar will bring together key stakeholders from government, utilities, and electrical equipment manufacturing to explore means of cost-effectively protecting the grid from geomagnetic storms and man-made EMP events. The Resilience Seminar will focus on ways industry and government can collaborate to develop best practices to enhance EMP and GMD protection for the grid.

Topics will include:

- Threat and Vulnerability Assessment
- Mitigation and Protection
- Voluntary Industry Standards
- Partnership Opportunities

June 8, 2021
1:00 PM-4:00 PM ET

You will receive a separate email with the meeting confirmation details including call-in information.

Speakers

Kevin Cosgriff
President and CEO
NEMA

[View Profile](#)

Caitlin Durkovich
Special Assistant to the President and
Senior Director of Resilience and
Response
White House National Security Council

[View Profile](#)

Randy Horton
Senior Program Manager
Electric Power Research Institute

[View Profile](#)

Bob Kolasky
Assistant Director
National Risk Management Center
Cybersecurity and Infrastructure Security
Agency

[View Profile](#)

Mark McVey
Principal Engineer
Dominion Virginia Power

[View Profile](#)

Sarah Mahmood
Acting Technical Director
Technology Centers Division Science and
Technology Directorate U.S. Department
of Homeland Security

[View Profile](#)

Mark Olson
Manager, Reliability Assessments
North American Electric Reliability
Corporation

[View Profile](#)

John Ostrich
Program Manager, Risk and Hazards
Analysis
Department of Energy, Office of
Cybersecurity, Energy Security and
Emergency Response

[View Profile](#)

Jim Platt
Chief, Strategic Defense Initiatives
National Risk Management Center
Cybersecurity and Infrastructure Security
Agency

[View Profile](#)

Alberto Ramirez
Principal
Resilient Grids

[View Profile](#)

Jonathan Stewart
Industry Director, Utility Products and
Systems Division
NEMA
